RE: Letter of Recommendation

To whom it may concern:

Overland Construction Corporation has used Paradigm Contractors on several retail box stores. Their professionalism and workmanship are top notch. They have been very proactive at meeting our deadlines and have done so with a superb product. They have been willing to go out of their way to make sure our projects were done right, including being very generous with their time and even helping out on scopes that were beyond their contract just to make sure that a quality job was done on time. Paradigm possesses the necessary expertise and equipment to do work ranging from small commercial/retail to large industrial. They are amongst a few contractors I have worked with that can promise big and deliver even bigger. I would highly recommend the Paradigm for any project.
